Editorial Note

A Little Bit of Chocolate. ✦ ✦

There is something special about being handed a chocolate on a happy occasion. It is a simple gesture that says, This moment matters. We saw your effort. We are happy for you. And perhaps that is why this month's newsletter wears the warm tones of chocolate.

The deep brown and chocolate shades bring warmth and a quiet sense of celebration, while the soft white creates space for individuality. The little stars are sparks of possibility — reminders that every child shines in a way that is uniquely their own.

As you turn these pages, you will see an unrelenting spree of awards, accolades and accomplishments. Yet, behind every result is a human story: hours of practice, a teacher's encouragement, a parent's belief, a child's courage to try again, and the joy of discovering what they can do.

We celebrate achievements, but we celebrate the people behind them even more. Each story adds its own flavour to who we are as a school — individual in expression, yet united by a shared spirit of excellence. So, consider these pages a little box of chocolates: many moments, many flavours, and many reasons to celebrate.

Go On. Take a Bite.
